Farmers Institute.

The Earmers Institute which was held in the High School Auditorium last Friday and Saturday was well attended considering it being the first thing of the kind that has been held hers for some years.

The lecturer, W. D. McKee is a practical farmer and knows the ups and downs of farm life, and he handled the several subjects well, discussing them in a way that any body could understand. He also used charts to illustrate the different subjects he spoke upon.

A good many farmers were present, more than usually is at such meetings. and all took a great interest in the subjects dispussed, and will no doubt be benefitted by what they learned.

A lecture on alfalfa on Saturday evening was given and a good many farmers were present to hear and learn what they could about this wonderful plant, and as a good many have sown their grown in Ripley county.

Much good was done by holding the institute, and it should be an annual affair.
